The copy filmed here has been reproduced thanks to the generosity of:

Metropolitan Toronto Reference Library
Arts Department

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Metropolitan Toronto Reference Library
Arts Department

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

FOR HARD OR SOFT COAL, COKE OR WOOD.

We take great pleasure, in calling your attention to our New RANGE, knowing that in offering so beautiful and useful an article for the purpose for which it is intended, we shall receive the hearty approval of all lovers of a first-class article: and while its construction is of the most modern, and in every way perfect, it is, at the same time, an ornament which any good house-keeper may feel proud of, and be assured she has for culinary purposes the most complete article ever put on the market.

In its CONSTRUCTION we have embraced all the latest and most modern improvements, such as:

CLINKERLESS GRATE. *AUTOMATIC OVEN SHELF.*

TOWEL RAIL (for the drying of dish-cloths or towels).

ILLUMINATING FRONT and MICA DOOR, with Protection Slide.

CONVENIENT SIFTING ASH GRATE AND PORTABLE ASH PAN.

Burnished Edges, and Full Nickel Plated Trimmings and Panels.

The RESERVOIR ATTACHMENT is superior to anything in the market: it is of the latest and most improved pattern: being portable, it can be easily removed and cleaned, if necessary, and the water is heated rapidly, and boiled if necessary.

The Cut on next page shows what we term our HIGH AND LOW CLOSET AND RESERVOIR COMPLETE.

Sizes—Nos. 8, 8½, 9, 9½ and 10.

WITH WARMING CLOSET.

The design or ornamention of the Duchess has been entirely changed, in addition to being furnished with solid plated trimmings, such as hinges, handles, etc., it is furnished with handsome plated panels, it is furnished with warming shelf, plated towel dryer, and with a self adjusting oven shelf which upon opening the oven door falls to the level of the oven bottom, thus enabling the cook to withdraw and turn anything without lifting it. The stove has demonstrated its worth to the satisfaction of the trade, so that we need only say that we have not altered any of its working parts.

Magee Portable Range.

WITH ELEVATED HOT CLOSET.

The "MAGEE" RANGE has achieved a marked success since its introduction to the Trade by us, and we confidently recommend it as a first-class Cooking Apparatus. It is perfect in operation, and can be fitted for wood or coal, and will work equally well with either. When desired, it is furnished with a Water Front, for heating water for the bath, etc. It has six holes, all of which are fully available. It has Mica Doors, and the Clinkerless Grates. The Oven is Extra Large Size, with Tin Lined Door, and is well proportioned and perfectly ventilated. The ashes are received into a large Cast Iron Pan, which is removed from front of Range.

FOR WOOD, WITH MICA FRONT DOOR AND SWING HEARTH.

In this Stove are combined all the qualities necessary in a Wood Cook Stove for the 1877 trade. The Oven is extra large; the Fire Box is very wide, admitting 27-inch wood in the four-hole Stove, and 32-inch in the five-hole. Our improved arrangement of the Flues gives it a sharp draught, makes it a perfect baker, and guarantees good work in any chimney. It is supplied with a Double Fire Bottom and Corrugated Fire Back, which will greatly aid its sale, as the increased durability of the Fire Box is plainly seen; the Collar is round, which permits the use of an ordinary 7-inch Collar Joint; the Covers and Centres are heavy, and the top so fitted with Expansion Plates that it is not easily broken; the Facings of the Stove are of the first quality; the Door Knobs are nickel-plated; the edges of the top and Hearth Bottom are highly burnished, and Oven Doors are tin-lined; in the Oven are Roasting Hooks, a very great convenience; the Hearth Bottom is supplied with a Sifter Grate and Dripper for broiling. We manufacture the Square Stove in three sizes.

This line of goods is now perfect, embracing five sizes of Square Stoves, besides the extension shown on the next page. During the past season the sale has been unprecedented, and there have been no two opinions as to the efficiency of the Stoves. THE HARVARD.

There is a constantly increasing demand for a first-class economical Open Front Stove, and this Stove is admirably adapted to meet the want. It is so arranged, that in addition to the outside radiating surface, the heat immediately above the fire is taken up by a current of air, and passed into the room from the ornamental fret work on the top. We make two sizes.

BETTES' PATENT HEATING STOVE.

As shown in cut of interior, the Flues are arranged on the principle of a C[illegible] Stove, with a Damper in the back [illegible] regulating. The Draft is carried to the extreme back of the Stove, dividing thence it returns through the Side Flues to the front, thence uniting and passing through the Centre [illegible] Back Flue into the Pipes. By this arrangement 50 per cent. of the heat that is carried from an Ordinary Box or Parlor Stove direct to the chimney and lost is radiated into the room. The Stove is mounted in Russia Iron, neatly [illegible]mented, with Swing Hearth and a Foot Rail on each side. The Urn co[illegible] White Porcelain Evapoarting Pan, which adds greatly to its appearance. We unhesitatingly recommend it as an Economical Wood Base Burner, unsurpassed in design and finish.

The "Countess"

BASE BURNER.

In calling the attention of the trade to the COUNTESS, we may say that we have thoroughly tested its working qualities, and do not hesitate to pronounce them perfect.

It is **HIGHLY FINISHED.** The Panels are copies of a celebrated bas relief, and are **HEAVILY NICKEL PLATED;** as also are the Name Plates, Urn Ornaments and all Trimmings.

The **EDGES ARE DEEP AND HIGHLY BURNISHED.**

Its **ILLUMINATING SURFACE** is equal to that of any stove in the market.

It has a **CLINKERLESS GRATE,** which can be **SHAKEN OR DUMPED** as required. The **SHAKER-HANDLE BEING A FIXTURE,** is always in place and adjusted for use.

A teakettle hole at back of stove (between pipe collar and stove) provides means for heating or evaporating water.

Supplied with Nickel Plated Foot Rail if required.

The Queen — Double Heater

OR PARLOR FURNACE.

We recommend the above without hesitation, believing that the defects which have formerly existed in *Double* Heaters have been completely overcome in this Stove.

The "Queen"

BASE BURNER.

A new and beautiful Base Burning Stove, which we have given a thorough trial and found perfect in its operation.

It is **MOUNTED AND FITTED IN A SUPERIOR MANNER.**

The **URN ORNAMENTS, PANEL ORNAMENTS, NAME PLATES,** and **ALL TRIMMINGS,** are **HEAVILY NICKEL PLATED.**

The **TURN BUCKLE** and Hinge Pins are portable, and doors can be taken off, which facilitates blacking stove and cleaning mica.

All edges are highly burnished.

It has **LARGE ILLUMINATION.**

The **GRATE IS CLINKERLESS,** and can be both **SHAKEN AND DUMPED** when desired.

The **CHECK DAMPER** gives perfect control of the fire, and provides for escape of dust when cleansing the fire.

It is provided with a Tea-kettle Hole (between pipe collar and stove), by which means water may be heated or evaporated, as may be required.

Our customers need not hesitate to recommend the "Queen" in the highest terms.

Furnished with Nickel Plated Fig't Rail when desired.

RUTTAN'S TUBULAR HEATER.

This stove has been got up expressly for the use of localities where a first-class Hall Stove is desired, and where coal cannot be had. It is represented by parties who are using it here to be more economical than a Coal Burner. It will be observed that the back part of the Stove rests on a Pedestal instead of Legs. The cold air is brought through this, either from out of doors, or from the floor of the room; it is then carried through Tubes running horizontally, from end to end, over the fire, and is thrown out of the Front Pipe Collar; it can be conveyed from thence by a Hot Air Pipe to any place desired.

Westlake's Patent Zinc Stove Platform

ROUND AND OBLONG.

We have obtained the exclusive right to manufacture the above in Canada, and are therefore enabled to offer at a much lower price than previous years. Our Round Boards are finished with a handsome beveled edge, and are highly polished to within a few inches of the centre; are made from heavy No. 10½ Zinc, and carefully-picked and thoroughly-seasoned lumber. Our Square Board is made of a solid, strong Wood Frame, firmly dovetailed together, over which we stamp heavy Zinc, making the corners round, and covering them with *extra* heavy Zinc, thus producing a strong, durable and handsome board. Sizes named below are constantly in stock.

ROUND—Bevel Edge—26, 30, 34, 36 inch.

PARLOR COAL GRATES.

The designs of Grates offered by Canadian manufacturers have become so very ancient and the finish and trimmings of the goods are so inferior to the imported article, that we made sure a good field was open to us for the introduction of modern styles and a better class of goods, and we have, therefore, after consulting with the largest dealers in the principal cities, made selections which we think will please. Our prices and sizes are arranged with great care, wishing, if possible, to have a Grate for each purchaser. We have not yet entirely finished preparing our patterns for manufacturing; on the completion of this work we shall issue a catalogue of Grates alone, containing a cut and full description of each Grate. As we intend making this a leading branch of our business, our patrons may depend upon receiving goods which will not in the least injure the hard-earned reputation we have acquired in other lines.
